

CaliforniaHealth+

We understand you

Whoever you are, we speak your language, honor your traditions and value your experiences. We treat everyone with respect and courtesy.

We are a trusted friend and partner in your care.

We fit your lifestyle

We're conveniently located in neighborhoods throughout California. Our health centers have extended hours that fit your busy schedule.

We care for your whole family

We provide care for everyone in your family, from babies to adults to seniors. This makes it easy for everyone to get the care they need all in one place.

We reflect communities

We focus on improving the health and wellness of communities, not just people. Our health centers are guided by community members, and staff come from the communities we serve.

We put you at the center

We put patients and their families at the center of care. We make sure that our patients have the information they need to make good decisions and be partners in their own health. We focus on patients, not profits.

We deliver quality care

Our health centers meet or exceed national quality standards. Research shows that our patients receive more screening and health promotion services, have better health outcomes, and save money by staying out of the hospital.

We want you to be well

We believe that the best way to be healthy is to stay healthy, in all areas of your life. Our health centers focus on a whole lifestyle approach to keeping you well.
